

medCULTURE

The **medCulture** Initiative is a Rotaract Mediterranean MDIO project Initiative which serves as a versatile and multidisciplinary social effort to preserve cultural heritage and promote unity in diversity. The aim is to protect cultural liberty and celebrate differences.

Under MED CULTURE Initiative are projects related to following United Nations Sustainable Development Goals (SDGs):

In order to participate in the **medCulture** Initiative, Rotaract projects must be in accordance with the given SDGs or promoting UNESCO world heritage sites among the Mediterranean community.

As it is understood from these SDGs, MED CULTURE Initiative is focusing on protecting and promoting unity in cultural liberty and diversity, preferably through exchanged projects and twinnings between Rotaractors around the Mediterranean and the world.

If your club carried out a project which can relate to this, do not hesitate and let us know so we can promote it through our social media channels and website. Additionally, you can apply for the **Outstanding Project Awards 2019/20**!

Let us learn about the impact and change you made.  
Let us share this with the Mediterranean.  
Be part of our *Wave across the Mediterranean!*
